London, Oct. 17.-The Alexandria corespondent of the Daily Mail, telegraphng regarding the anarchist plot against Emperor William, which was discovered on Friday, says:

"The plot against the Kaiser is hourly proving more important, each arrest disclosing new ramifications. The documents found disclose a plot to kill King Humbert, already well matured.

"Fifteen persons, all Italians, have been arrested. The original plan was to throw a bomb of gun cotton and fulminate of mercury on Emperor William's carriage in a narrow street in Cairo. When the Egyptian trip was abandoned elaborate arrangements were made by the conspirators to send confederates to Jerusalem to carry out the plot during the dedication of the German Church of Our Redeemer."

THE political situation is mixed. Both sides expect to carry the next House. The Democrate are fearful but hopeful. The Republicans are hopeful but fearful. This is the "off" year when the ins so often become the outs, and this makes the Republicans nervous. The spathy that prevails in "off years," is "on," and the Republicans are stirring themselves to overcome it. With such a leader as Mark Hanna at the head, a little thing like that ought to give no trouble.

THE way to make a party strong, is to have nominations for office made fairly by the people. When bosses and tricksters call conventions at odd times and places and pull wires to cheat the eople and allow a few disreputable tricksters to make the nominations, it is in vain to make frantic efforts to get the people to stand by the ticket. The cople don't recognize such tickets as heir ticket. Whenever the time comes that tricksters have only to secure nominations by dishonesty and trickery to secure an election, then "government y the people', becomes a mockery, and he people become the puppets of their bosses. burden of success or failure. That there were no complaints to speak of, and everybody praised the manner in which Mr. Chamberlain performed his duties, is evidence of his ability for the position He marshaled his forces like a general and had everything well arranged beforehand. His success this, his first year should secure him a re-electon.

Some friends are giving him a hearty welcome of the helpful thoughts were: The English language cannot now have a grammar that is as complete as some of the foreign languages. The English language is comparatively new.

He spoke at length of the four diviions of grammar. Parsing is intellectual gymnastics. Analysis and synthesis should be taught side by side. Synthesis expanded to composition is the crying need of

our schools. This paper brought forth an earnest discussion. The singing by the Euterpean Quartette of Degraff was greatly appreciated. This musical organization has won a well deserved reputation among the

teachers of the county. The paper by H. D. Peterson on was read by Mr. Ballinger. He said: 'Higher pay will enable teachers save enough to further education by attending some college. It will also make it a life profession and not a step-

ping stone to something else.' A sweet vocal solo by Mrs. Britton, o Degraff, was a pleasing feature of the

program. Hon, J. P. Bower, the popular Repre entative from Logan county, gave a very interesting and instructive talk

upon "School Legislation." In his address he made clear his in terest and ability to deal with educational laws. He first told of the nev law that was introduced last Winter It provided for township High Schools This to be accomplished providing the voters of two townships vote for it and agree upon a site.
